2 assessments should be filled in to assess competency. Short comments can be made, but the following descriptions must be used:

0 - did not attempt, 1 - not yet competent, 2 - competent

Date: 29/08 29/08 29/08 29/08 29/08
 Venue: Inkwazi
 Assessor: Aimee

All walk equipment present and in perfect condition					
10 carry rounds inspected					
Rifle in Perfect condition? (lock, stock, barrel, bolt)					
Check Rounds (propellant / primer / casing / bullet)					
Choice of Rounds (solid or soft and reason for choice)					
Was magazine filled correctly?					
Has rifle been made safe before proceeding?					
Was the rifle and ammunition handled as per the company standard?					
Start of engagement					
Were instructions to guests accurate and loud enough? ("Stop! Stay behind me!")	2	2	2	2	2
Was he/she able to shout instructions and chamber the round simultaneously?	2	2	2	2	2
First target, 5m, 1 shot					
Was the shot accurate (within the 8cm brain zone)?	2	2	2	2	2
Second target, 3m, 1 shot					
Was the shot accurate (within the 8cm brain zone)?	2	2	2	2	2
Was the last (3rd) round chambered immediately?	2	2	2	2	2
Did his/her finger move onto the trigger immediately after chambering the 3rd round?	2	1	2	1	2
Were there any handling errors or stoppage's?					
Time taken - (8 sec to achieve this.)					
Did he/she step aside for 'killing shot' ('coupe-de-grace'), emulating moving behind the animal to shoot at the Atlas and Axis joint? Were instructions clear? ("Follow me around. Stay behind me.")	2	2	2	2	2
Once in position, were clear instructions given to the guests to stay behind him/her? ("Stop. Stand still. I'm going to fire one more shot.")	1	2	2	2	2
Was the shot accurate?					
Did he/she refill magazine from belt pouch, fluidly?	2	2	2	1	2
Did he/she keep their eye on animal while refilling?	1	2	2	2	2
Did he/she chamber immediately and place finger on trigger?	2	2	2	2	2
Were instructions to guests to stand still whilst he/she approached the animal clear and accurate? ("Stay where you are. I'm going to make sure this animal is dead.")	2	2	2	2	2
Did he/she approach the animal with finger on the trigger & aiming at the brain?	2	2	2	2	2
Was the corneal reflex done correctly?	2	2	2	2	2
Once it was established that the animal was dead, did he/she remove their finger from the trigger and engage the safety before stepping back?	2	2	2	2	2
When he/she got back to the guests, was the weapon across the body whilst he/she made it safe? Was the rifle handling safe?	2	2	2	2	2
Did he/she leave the scene with his/her guests immediately and without disturbing evidence? Were instructions clear? ("First name*. Please lead us back ... *clear instructions where exactly to lead us*. Everyone please follow *first name*. Walk. Stay together.")	2	1	2	2	2
Did he/she move the group far away from the scene (at least out of sight) before having a way point to check that all are okay and plan the next move? ("Are you okay? This was a tragic incident and there will be a full investigation. We are going to head straight back to the lodge now."). Also that no photos are to be taken!	2	2	2	2	2
Was the 'blockage' assessment achieved rapidly and smoothly					
Was the rifle and ammunition handled as per the standard throughout?
